

5G Telecommunication

Faster speed and ultra-low latency to expand your business

Transcend's embedded storage products employ 112-layer 3D NAND flash and DDR5 memory modules, delivering reliable performance for demanding workloads, while also offering improved power efficiency and data transfer accuracy for 5G platforms.

Optimized Performance

Built-in DRAM cache and LDPC ECC algorithms prevent data corruption.

Guaranteed Reliability

100% chamber tested in-house & major-grade chips deliver trusted quality.

Comprehensive Product Line

Variety of form factors for different systems and interfaces.

Featured Products

PCIe M.2 2280

MTE720T

SATA III M.2 2280

MTS970T

SATA III M.2 2242

MTS570T

SATA III 2.5"

SSD470A

DDR5 4800

ECC DIMM
